DETAILED ACTION

In response to the communication filed on March 10, 2005, claims 1-4, 7-14 and 32-34 are active in this application.

Applicant's election without traverse of Species I, Sub-species in the reply filed on March 10, 2005 is acknowledged.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Oath/Declaration

Oath/Declaration filed on July 23, 2003 has been considered.

Reasons For Allowance

1. Claims 1-4, 7-14 and 32-34 are allowable over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: the prior art of record neither teach nor make obvious the claimed limitation of the instant application as a whole as recited in claims 1 and 32, respectively. In particular, the prior art does not teach or suggest the particular subset of the process steps for forming the non-volatile memory device by forming spacers on exposed portions of the nitride layer adjacent the second oxide layer so that a portion of the nitride layer remains exposed between spacers; removing portions of the nitride layer and

the first oxide layer exposed by the spacers to thereby expose portions of the substrate between the spacers; removing the spacers; forming the third oxide layer on the exposed portion of the substrate, on exposed portions of the nitride layer adjacent the second oxide layer and on the second oxide layer; and forming the conductive electrode on the third oxide layer between the portions of the second oxide layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
